MANAGEMENT DISCUSSION AND ANALYSIS

Risk and Concerns

The company is essentially an Commercial Company. Its source of income is from commercial activities on business done and held by it with other parties and the capital appreciation of investments. Any adverse financial impact on the operation / business of the invested companies may impact the revenues of the company and also the result in diminution in the value of investments.

Management Perception

The business of the company are done in the ordinary course of business and are mainly focussing in catering the needs of its associates and other business links. Investment of the Company if any with the other companies shares are shown in the books of accounts at cost of acquisition. The listed investment should generally have a good capital appreciation looking to the capital market trends. However, the sudden and high volatility in the stock markets based on several factors including global factors may affect the market values of the investments.

Adequacy of internal control system

The company's internal control system and procedures are commensurate with the size of operation and are adequate to ensure –

- safeguard its assets and resources against loss, unauthorized use or disposition,
- compliance with the statutes and regulatory policies and framework, and
- all transactions are authorised, recorded and reported correctly.

The Audit Committee of Directors continually reviews adequacy of internal controls.
